Professional Summary

Results-driven Angular Developer with 3+ years of experience delivering enterprise-grade web applications, specializing in Angular 21, Micro Frontend Architecture, RxJS, Reactive Forms, PrimeNG, and PrimeFlex. Proven track record leading Oracle ADF (JSFF) to Angular migrations and React-to-Angular modernization initiatives. Extensive experience building insurance platforms supporting motor claims, policy management, vehicle assessments, workflow automation, and reporting solutions. Strong expertise in Oracle Database and PostgreSQL, API integrations, CI/CD practices, and AI-assisted software development. Recognized for technical leadership, problem-solving, mentoring junior developers, and delivering scalable business-critical applications.

Core Competencies

Angular 21 • TypeScript • RxJS • Reactive Forms • Angular Signals • Micro Frontends • PrimeNG • PrimeFlex • Tailwind CSS • REST APIs • Spring Boot Integration • Oracle Database • PostgreSQL • SQL Optimization • Oracle ADF (JSFF) • React • CI/CD • Nginx • Linux • Git • Agile/Scrum • AI-Assisted Development

Technical Skills

Frontend: Angular (12–21), TypeScript, JavaScript (ES6+), RxJS, Reactive Forms, Angular Signals, PrimeNG, PrimeFlex, Tailwind CSS, SCSS, HTML5, CSS3, Micro Frontend Architecture.

Backend & Integration: RESTful APIs, Spring Boot Integration, JWT Authentication, API Consumption.

Databases: Oracle Database (Expert), PostgreSQL (Expert), SQL Query Optimization, Database Design, Data Modeling, Performance Tuning.

DevOps & Tools: Linux, Nginx, Git, GitHub Actions, GitLab CI, CI/CD Pipelines, Jira, Trello, Postman.

AI Development: ChatGPT, Claude, Cursor, GitHub Copilot, Codex.

Professional Experience

Angular Front-End Developer | Lebanon

- Developed and maintained enterprise insurance platforms used for vehicle assessments, policy management, motor claims processing, and workflow automation.
- Led migration initiatives from Oracle ADF (JSFF) to Angular, modernizing legacy systems and improving maintainability.
- Successfully delivered React-to-Angular migration projects while preserving critical business functionality.
- Served as the primary Angular developer in the department, driving architecture decisions and

frontend standards.

- Built scalable micro-frontend applications and reusable UI libraries to accelerate development across projects.
- Implemented complex dynamic forms, validations, workflows, and business rules using Angular and RxJS.
- Integrated enterprise applications with Spring Boot services and backend databases.
- Worked extensively with Oracle Database and PostgreSQL to support business workflows and reporting requirements.
- Deployed and supported production environments using Linux and Nginx.
- Mentored interns and junior developers through code reviews, technical guidance, and best practices.
- Collaborated with backend, DevOps, and AI teams to improve delivery speed and software quality.

Key Projects

Motor Claims & Insurance Management Platform

Enterprise platform supporting policy management, vehicle assessments, claims processing, approvals, reporting, and insurance workflow automation using Angular micro-frontends and Spring Boot services.

Vehicle Parts Assessment System

Angular-based enterprise solution for vehicle inspection, damage assessment, parts evaluation, and reporting.

Medical Vending Machine Platform

Smart healthcare solution featuring real-time video communication between users and medical professionals.

Education

Bachelor of Science in Information Technology (IT)
Lebanese International University (LIU)

Languages

Arabic (Native) | English (Professional Working Proficiency)
